

StrengthsFinder

Age: 16+

What do you do?

**1. Purchase your Strengths Discovery Package from www.gallupstrengthscenter.com
Codes are \$10USD each.**

All codes are now being bought online (CYS used to distribute them). To purchase a code you will need to create a login BEFORE completing the assessment, UNLESS you already have a Gallup login account (if you have already done the assessment yourself and are just buying a code for someone else you are able to use your account you created to take the assessment to buy a code – if you've forgotten your account details, you're welcome to create a new account however, it will need to be with an email address that has not previously been allocated to a Gallup Strengths Assessment). Once the code/s have been purchased you are able to manually manage them yourself and email them directly to the participant.

To complete the assessment, you will need to find a quiet and interruption free place to complete the test. Please allow yourself 40 minutes for this process.

**2. On completion of the assessment, you will receive your Top 5 Signature Theme Report.
Read through this report to prepare for your coaching session.**

3. Email your Signature Theme Report to a certified coach.

Your coach will contact you directly to make an appointment. Each coach is trained to make this session a very relaxed yet insightful, positive experience for you. If you do not have a coach, contact the Strengths Network office and we'll set you up with someone. Coaching costs differ depending on the coach.

Note: StrengthsFinder is designed to be a practical tool for individuals, however, without the coaching component, it merely becomes a fun pop-quiz with about as much impact. The process of understanding your Strengths is to spend time with an accredited coach who will help you discover the profound impact of your Top 5 Talents.
